REGULATORY COMPLIANCE WITH MANAGEMENT SOFTWARE

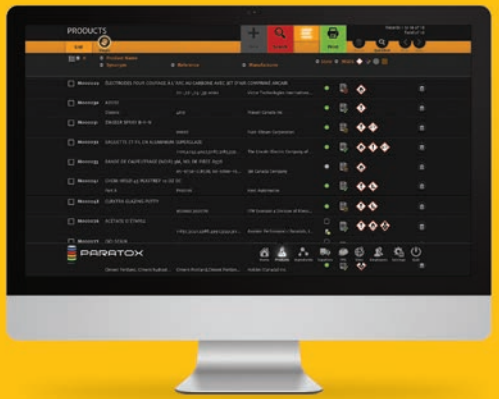
This intuitive system is so simple and easy to use allowing you to focus your efforts on prevention while our team takes care of making your inventory globally compliant. Look no further, PARATOX translates into Simplicity, Efficiency and Ingenuity!

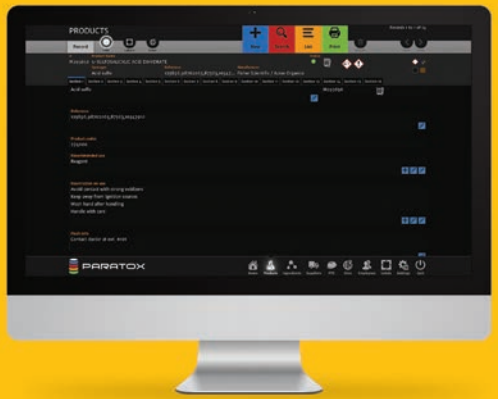
By purchasing a hazardous materials management software, you will be able to solve a multitude of problems that face you on a daily basis. There are more than 6 million hazardous chemicals in the world and about 1,200 new chemicals are developed each year. That is a huge amount of safety information to incorporate into a successful prevention plan. This software will allow you to perform your due diligence as well as ensure your compliance with different regulations.

PROBLEMS THAT CAN BE REMEDIED THROUGH PARATOX

- Countless paper binders
- Finding SDS takes too much time
- Too many dedicated resources
- Lack of compliance to the various regulations
- No management system currently in place
- Complicated search engines
- Unrequired products included in the database
- Outdated safety data sheets
- Laborious inventory updates
- Non-compliant or even non-existent labels
- Administration of products is ridiculously time-consuming
- Uncentralized data limits the accessibility to SDS
- Transition to the GHS / WHMIS 2015
- Obtaining SDS in several languages
- Lack of awareness of PPE
- And many more…

ESSENTIAL CHARACTERISTICS





01 **YOUR CUSTOM-BUILT SDS LIBRARY**

Get instant access to your custom-built library of safety data sheets including the 16 sections of GHS centralized within a single system.

02 **SMOOTH TRANSITION**

Benefit from an effective transition to GHS regulations since many display options are available simultaneously (GHS, WHMIS, OSHA, EU).

03 **INTEGRATED QR CODE**

In case of emergency, get immediate access to SDS information using the QR code embedded in PARATOX labels. You will save precious minutes that are crucial in crisis management.

04 LABELS TAILORED TO YOUR NEEDS

Choose the format and regulations applicable to your business when creating and printing your labels. Customize by adding information specific to your organization.

05 ACCESSIBILITY TO ALL

Available in multiple languages and accessible on all platforms, regardless of your geographical location, PARATOX will easily become your corporate solution.

06 DETAILED INVENTORY

Associate your hazardous products to their site of use for a safer management of incompatibilities in your inventory. It will make it much simpler to take the appropriate actions in case of emergency.

07 **COMPLETE PPE REGISTRY**

The software offers a customizable registry of personal protective equipment linked to each of your products. It will enable you to educate your employees to handle the hazardous materials properly.

08 **SIMPLIFIED QUERY AND QUICK RESULTS**

You will have direct and easy access to your records with the quick search feature. You can enter the minimum of information among different criteria to find the desired SDS: product name, synonym, code, number, ingredient, department, site of use, etc.

09 **RELIABLE SDS MANAGEMENT**

From taking the inventory to providing overall compliance, our team of experts takes charge of everything. It is our responsibility in liaison with the manufacturers to keep your records up to date. We take care of the SDS management while you focus on carrying out preventive actions!

AN INVESTMENT THAT PAYS BIG!

The majority of companies that have implemented PARATOX have managed to decrease their event rate related to hazardous products by more than 50%. These types of accident can cost an average of $15,000 in corrective measures, time losses, real estate repairs and environmental impacts. Without doubt, acquiring the PARATOX software will generate a short-term return on investment.
